# Long use even in extreme cold

Supplied 2300mAh (typ.) Li-Ion battery pack, BP-232H has superior electrochemical characteristics even in extremely cold areas (0°C to -30°C). It provides stable output for longer while having less voltage reduction at low temperatures.

## **Optional board**

The IC-F16/S series has an expansion socket for adding an optional board. Voice scrambler, man down and DTMF decoder features are available, depending on the installed board.

#### Most popular signalings built-in

Use the built-in 2-Tone, 5-Tone, CTCSS and DTCS capabilities as standard to set up your own talk groups and quiet standby when others are talking.

#### **Multiple 2-Tone, Multiple 5-Tone**

Up to ten 2-Tone/eight 5-Tone codes can be decoded on a channel. When a matched tone is received, the following items are programmable for each code.

- Beep sound Answer back Stun
- LED blink Scan

# Other features

- MDC PTT ID and MDC emergency call functions are available (Transmit only)
- · LED low battery alert
- TOT function and lock out penalty timer
- 2 step power saver
